Reported Cases by Month and Year

Cases per month: total vs reported

Total Cases shared by crime type

- Total cases fell from 225.7K in 2019 to 181.7K in 2025. Reported cases rose from 107.6K to 125.6K. The gap between the two lines is police raids.

- Raid share is 40.8% over the whole period but fell from 52% in 2019 to 31% in 2025. 2026 covers Jan to Aug only. Aug 2024 is the lowest month on record (8,833 total cases).

What and when: women and children cases lead, and March to September is busiest

- Other Cases (582K) are left out of the bar chart because they would flatten every other bar. The matrix counts all cases, including police raids. 2026 stops at August.

- Women and children repression is the largest crime type: 161K cases, about 2.4 times theft (66K). Theft, murder and burglary follow.

Two alarms: a one-month murder spike in Aug 2024, and kidnapping more than doubling since 2023
